## FEATURE MATRIX

### COMPARISON BY PRODUCT EDITION

FEATURE	DESCRIPTION	LEGAL	PROFESSIONAL	PREMIUM	HOME
Transcription Tools	<p>Includes option to save synchronised audio from dictation done in <b>DragonPad, Word, WordPerfect</b> and <b>OpenOffice Writer</b> (Dragon saves a .dra file along with the transcribed text file); includes Auto-Transcribe Folder Agent (monitors a specific directory to automatically launch transcription; can provide a synchronised audio file along with the transcript for deferred correction) and Correction Only mode (correctionist can turn on the Correction Only setting within the original dictator's profile)</p> <p><i>NEW - ATFA now supports .DOC and .RTF as output formats, in addition to .TXT; can run a script (such as an email notification) when a transcription is complete</i></p>	●	●		
Remote Desktop Connection	<p><i>NEW - Supports remote use on a computer running Windows Server 2008 R2, Windows 7 Ultimate or Windows 8 Pro. With Microsoft's free Remote Desktop Connection software (formerly called Terminal Services Client), you can use Dragon from a local Windows computer on which Dragon itself is not installed.</i></p>	●	●		

\* **Full Text Control** allows you to use voice to perform direct dictation, selection, correction and cursor movement within text. The **Dictation Box** is an option in places where Full Text Control is not available. **Menu Tracking** provides the ability to use voice to "click" an application's menus, buttons, dialog boxes, etc. **Natural Language Commands** let you state your intent within a specific application instead of following the menu-selection and mouse steps of the Windows interface.
