

DRAGON NATURALLY SPEAKING 11 HOME The Fun, Fast and Convenient Way to Interact with a PC - Just By Talking

Dragon® NaturallySpeaking® 11 Home provides a whole new way to interact with your PC - using speech instead of a keyboard and mouse. Just say

words and they appear on your computer screen - three times faster than typing - with no typos! Tell your PC what to do and it obeys your commands. Dragon Home understands what users say and how they say it. Use your voice to:

- Dictate and format documents
- Surf and search the Web
- Send email and instant messages to family, friends and colleagues
- Update Facebook, MySpace or Twitter
- ... and so much more.

Dragon provides everything you need to get started, including a high-quality headset. There's no faster, easier or more enjoyable way to get things done on a PC for home, school or leisure activities. Once you discover the Dragon difference, you'll wonder how you ever managed without it.

STOP TYPING, START TALKING

Just say words and watch them appear on your computer screen - three times faster than typing - with up to 99% accuracy right out of the box. Dragon can learn the words you say every day, including acronyms and proper names. It even gets to know your voice better over time for increased recognition accuracy.

SPEAK AND THE PC OBEYS

Dragon eliminates the need to navigate menu options or type in keywords so you get more done faster. Just tell Dragon what to do and it does it. Control applications or edit and format text using simple voice commands like "Open Microsoft Word", "Show my photos", "Bold that" or "Center the row".

MULTITASK LIKE NEVER BEFORE

Dragon Voice Shortcuts make it faster and easier than ever to create email or search the Web or desktop for specific information or resources.

- Send an email to multiple friends by saying, "Send email to John Smith and Caroline Sanchez". Dragon automatically opens Microsoft® Outlook®, creates a new email and enters the correct email addresses for you.
- Say commands like "Search the Web for low-fat lasagna recipe" or "Search maps for Trinity College, Oxford, UK" and Dragon returns the results.

TRANSFORM IDEAS INTO TEXT AT THE SPEED OF THOUGHT

With Dragon, typing, spelling or fear of the blank page won't slow you down. Dragon keeps up with your mind, instantly transforming ideas into text - with no spelling mistakes. Just say what you mean instead of struggling with the keyboard or worrying about spelling. Now you can focus more on the content of your writing and less on the mechanics of typing.

EASY TO USE

- Simple installation gets you up and running in minutes
- **NEW!** The **Dragon Sidebar** puts important voice commands and tips in one desktop location for at-a-glance convenience
- **IMPROVED!** On-screen help and tutorials make it faster and easier to complete tasks by voice
- Works with most Windows-based applications
- Comfortable hands-free interaction lets you control your PC without being constrained by the keyboard.

CREATE DOCUMENTS AND EMAIL, CONNECT WITH FRIENDS ONLINE, SEARCH THE WEB AND MORE - ALL BY VOICE!

SYSTEM REQUIREMENTS: The install process checks that your system meets the minimum requirements; if they are not met, Dragon NaturallySpeaking will not be installed • CPU: minimum 1 GHz Intel® Pentium® or equivalent AMD processor or 1.66 GHz Intel® Atom® processor. We recommend 1.8 GHz Intel Dual Core™ or equivalent AMD processor. (IMPORTANT: SSE2 instruction set required) • Processor Cache: minimum 512 KB. We recommend 2 MB • Free hard disk space: 2.5 GB • Supported Operating Systems: Microsoft Windows 7, 32-bit and 64-bit. Microsoft Windows Vista SP1 and SP2, 32-bit and 64-bit. Microsoft Windows XP SP2 and SP3, 32-bit only. Windows Server 2003 and 2008, SP1, SP2 and R2, 32-bit and 64-bit. • RAM: minimum 1 GB for Windows XP and Windows Vista, and 2 GB for Windows 7 and Windows Server 2003/2008. We recommend 2 GB RAM for Windows XP and Windows Vista and 4 GB for Windows 7 and Windows Server 2003/2008 64-bit • Microsoft Internet Explorer 6 or higher (free download at www.microsoft.com). • Creative® Labs Sound Blaster® 16 or equivalent sound card supporting 16-bit recording • DVD-ROM drive required for installation • Nuance-approved noise-cancelling headset microphone (included in purchase). See details at support.nuance.com/compatibility/.

Note: An internet connection is required for product activation (a quick anonymous process).

*This edition of Dragon does not support dictation directly into Electronic Medical Record (EMR) Systems. For EMR support, please use Dragon Medical.
