

Nuance Document Imaging Solutions for Healthcare.

Securely automate paper and electronic workflows to increase productivity, protect PHI, reduce costs, and improve patient care.

While the imperative to attain fully electronic-based health records has garnered a lot of attention, the reality is that most healthcare organizations still handle a lot of paper today—and will continue to for the foreseeable future.

This continued creation and use of paper documents decreases productivity, increases costs and PHI security risks, and impedes efforts to achieve Meaningful Use as providers implement EHR systems.

Document Imaging Healthcare Solutions from Nuance

Nuance document imaging solutions allow healthcare organizations to securely capture, process, route, print and share documents across the facility. With these document scanning, conversion, print management, and PDF creation and editing solutions—healthcare organizations can focus less on managing paper and more on what matters most—securely delivering higher quality, lower cost patient care.

eCopy Medical

Advanced healthcare document processing

eCopy Medical turns network scanners and MFPs into secure on-ramps to the EHR, ECM and other endpoints, accelerating information access and making the patient record more complete. With a few simple button presses at the MFP, a document can be securely scanned and indexed to the EHR.

As the world's best-selling document scanning and workflow solution for MFPs, eCopy Medical provides everything needed to automate paper-to-digital workflows easily and securely. With additional connectors for leading ECM, fax server, and other popular business applications, eCopy Medical can help healthcare organizations improve document workflows across all departments.

Benefits of eCopy Medical:

- Safeguarding PHI with access control, delivery confirmation, redaction, encryption and complete audit trails
- Simplified point-of-care scanning to accelerate information access
- Standardized interface across capture devices to support HIM scanning protocols
- Integration with popular EHRs, ECMs, fax servers, and other key systems

A Complete Document Imaging Portfolio for Healthcare

Nuance helps healthcare providers increase productivity, protect PHI, reduce costs and improve care by:

- Accelerating and standardizing clinical document capture across the organization
 - Tightening security of patient information workflows and strengthening HIPAA compliance frameworks
 - Improving accessibility and usability of clinical and administrative information at the desktop
 - Eliminating wasteful printing and dramatically reducing print volumes
-

eCopy PDF Pro Office

Reduce PDF licensing costs and securely automate healthcare PDF tasks

Nuance's eCopy PDF Pro Office is the smarter PDF desktop software companion to MFPs. It is a powerful, easy-to-use PDF solution that lets healthcare workers create, convert, collaborate and secure files like never before—all at a price that makes sense.

By improving the accessibility and usability of clinical documents at the desktop, eCopy PDF Pro Office improves security and compliance and provides dramatic productivity gains. From the creation and combination of PDFs, to the construction of fillable forms, to the annotation, redaction, mark-up and encryption of healthcare documents—PDF Pro Office simplifies once “hard to do” tasks.

Benefits of eCopy PDF Pro Office:

- Significant time savings with fillable and savable forms
- Increased productivity with improved ability to create, merge, modify, mark up, search, and highlight PDFs
- Enhanced document security and control to protect PHI

Equitrac Office

Secure printing, improved compliance, and reduced costs

Unmanaged printing is an untapped opportunity for healthcare organizations looking to reduce costs and increase profitability. Equitrac Office® print management software helps healthcare organizations manage and regain control of their print environment while increasing document security, enhancing security compliance, and dramatically reducing costs.

Equitrac Office delivers these benefits by authenticating users, automatically enforcing printing rules, and accurately identifying and allocating document costs—giving healthcare organizations complete visibility and control of all printing activity.

Equitrac Office's Follow-You Printing® technology utilizes authentication at printers and MFPs to allow users to retrieve their print jobs at any output device, making print resources more accessible and convenient. By controlling access to output devices and tracking every document printed, Equitrac Office reduces the risk of exposing Patient Health Information (PHI) and plays an important role in a healthcare provider's HIPAA Compliance Framework.

Benefits of Equitrac Office:

- Increased security of PHI and enhanced HIPAA compliance framework
- Convenient and secure access to document output wherever needed with Follow-You Printing®
- Significant cost savings and reduced waste with robust print rules and routing
